How to sync your iPhone, iPod, or iPad to your computer

- Open iTunes
- Connect your iPhone/iPod/Or iPad to your computer with a USB cable
- Your device will show up on the left side of iTunes under devices

-

Select your device and you will see details about it in iTunes

- On the lower part of iTunes you will be able to see how much memory your device is using, and next to that will be the Apply button
- Click Apply, in the lower-right corner and your device will begin to sync with your computer

How to sync your iPhone, iPod, or iPad to your computer wirelessly

- Open iTunes
- Connect your iPhone/iPod/iPad to your computer with a USB cable
- Select your device on the left side of iTunes
- Navigate to the summary tab and select “Sync with this [your device] over wi-fi”

- Device will now show up in iTunes when your device and computer are connected to the same wi-fi network
- Devices will automatically sync if:
    - Device is connected to power
    - iTunes is open on the computer
    - Device and computer are on the same wi-fi network
- Click apply to sync device if not done automatically
